

## Cape May Point Community Non-Profit Funds

The Borough of Cape May Point has four non-profit funds which support many important activities during the year. Donations can be personal or in honor/memory of someone to any of the following funds.

The Lifeguard Trust sponsors the Junior Lifeguard Program, the annual Women's Lifeguard Challenge, other lifeguard special events during the season and the purchase of essential lifeguard equipment.

The Environmental Trust supports Environmental Commission educational projects and community outreach to protect our environment in Cape May Point.

The Lake Lily Stewardship Trust supports ecologically-sound maintenance of water quality, shoreline and woodland vegetation, invasive species removal, and the south-end garden to benefit wildlife.

The Community Tree Fund supports the planting, care and maintenance of trees throughout the dunes, parks and open public space across the borough.
